

## RESOLUTE

The catalogue “The Ceramic Tiles Book 3” is the reflection of vision as a force of the soul and the surrender to the human will in its goal to create.

This book, more than a presentation of new products it's our DNA, the organic that makes up our company and the credibility built on what we do and not on what we intended to do.

The Pavigrés Group, today, remains resolute among the challenges, adopting bold measures in a joint action between people, organizations and means, ensuring that the future belongs to those who believe in the value of their work.

O catálogo “The Ceramic Tiles Book 3” é o reflexo da visão como força da alma e da capitulação à vontade humana no seu objetivo de criar.

Este catálogo, mais do que uma apresentação de novos produtos é o nosso ADN, a orgânica que compõe a nossa empresa e a credibilidade construída com base naquilo que se faz e não naquilo que se pretendeu fazer.

O Grupo Pavigrés, hoje, segue resolutos entre os desafios, adotando medidas audaciosas numa ação conjunta entre pessoas, organizações e meios, assegurando que o futuro pertença aos que acreditam no valor do seu trabalho.

SURFACES, FORMATS & COLORS

Underneath the loose surface, lies a masterpiece of geological structure called Bedrock. Unborn mineral, raw and pure, emerges to life in random diversity of nature.

Achieving excellence is combining imagination with the experience of know-how.

Por baixo da superfície encontra-se uma obra-prima da estrutura geológica chamada Bedrock. Mineral ainda por nascer, cru e puro, emerge para a vida com a diversidade aleatória da natureza.

Atingir a excelência é combinar a imaginação com a experiência do saber fazer.

SURFACES, FORMATS & COLORS

Sandstone Collection is a cultural expression, our “Piazzentina” stone look vision with a revival touch in its original design and in a unique combination of colour set for floor and walls.

Single colour tiles of deep black, white and light grey, traced by remarkable white veins set the master design for the floor. For the walls, we took this approach a little further, in a twin color concept, we merge the original colours with warm details connecting them with deep veins.

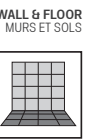

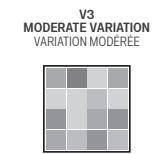

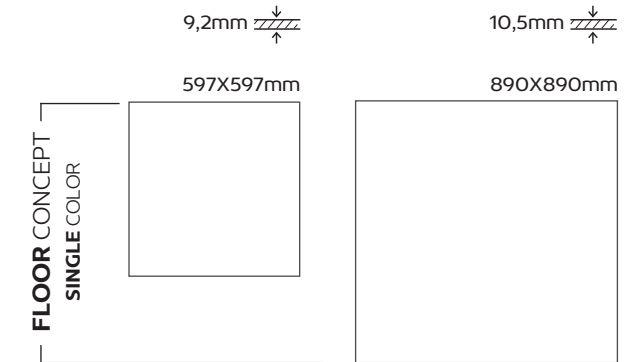

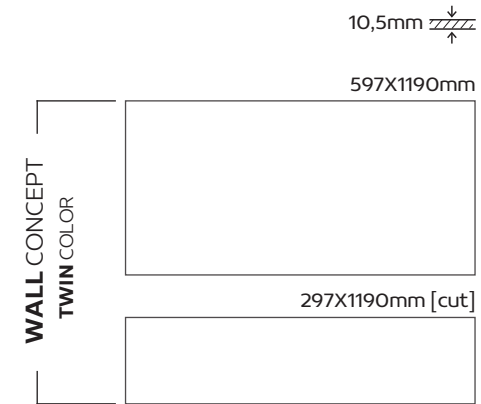

A coleção Sandstone é uma expressão cultural, a nossa visão da pedra “Piazzentina”, de toque revivalista no seu desenho original numa combinação única de cores para pavimento e paredes.

Peças monocromáticas em preto, branco e cinza claro, traçados por veios brancos definem o design mestre para o pavimento. Para a parede, levámos esta abordagem mais longe, num conceito de cor dupla, misturamos as cores originais com detalhes quentes ligados por profundos veios.

SURFACES, FORMATS & COLORS

Gemstone is a rich combination of distinctive minerals, assembled by time with the unique will of nature. This arbitrary combination of marble and sand, limestone and the lividity of talc becomes what is today classified as precious stone. Of soft touch and unrivalled clarity, the Gemstone Collection is presented in 4 primary colours creating distinctive spaces very close to the origin of everything.

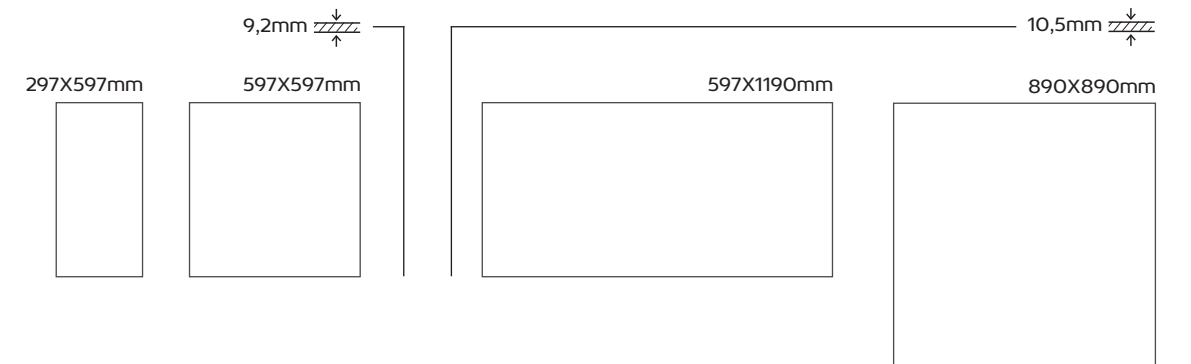

Gemstone é uma combinação rica em minerais distintos, agregados pelo tempo e pela vontade singular da natureza. Esta combinação arbitrária entre o mármore e as areias, o calcário e a lividez do talco converte-se no que hoje é classificado como pedra preciosa.

De toque suave e uma nitidez ímpar, a coleção Gemstone é apresentada em 4 cores basilares criando espaços distintos muito próximos da origem de tudo.

# TERRAZZO

SURFACES, FORMATS & COLORS

Terrazzo has been of significant architectural importance since the 15th century and, despite its origin from a much earlier time, it gained special relevance in Venice thanks to its aesthetics and durability. True to our values, we have created a Terrazzo of high technical performance, sober in its color palette, with some of them combinable with our "P21 Architect Collection" range.

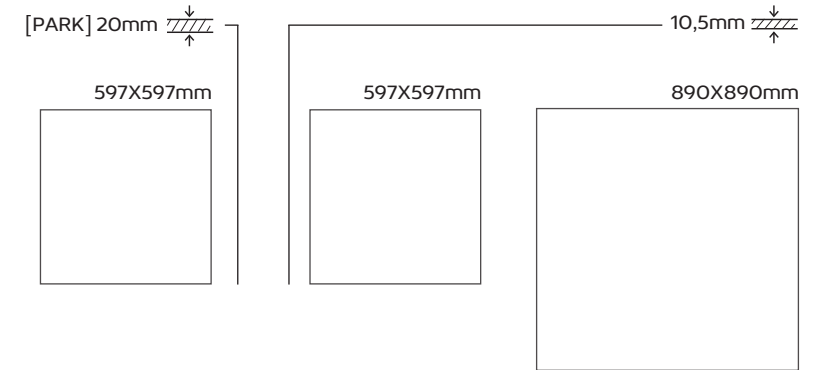

O Terrazzo é, desde o século XV, de uma importância arquitetónica significativa, e apesar da sua origem ser de uma época muito anterior, ganhou especial relevância em Veneza graças à sua estética e durabilidade.

Fiéis aos nossos valores, criámos um Terrazzo de elevada performance técnica, sóbrio na sua paleta de cores, sendo algumas delas combináveis com a nossa gama "P21 Architect Collection".

SURFACES, FORMATS & COLORS

We have a long history in sustainable products, wood in porcelain stoneware is just a small example of it. We developed a long-awaited product in addition to our wood family, our new Deck. With a three-dimensional design, it has been carefully planned for water drainage and exceptional non-slip outdoor features. From the original blueprint of our Coolwood and Deepwood collections, we shaped it in 4 natural colors.

Temos uma longa história em produtos sustentáveis e as madeiras em grés porcelânico são apenas um pequeno exemplo disso. Desenvolvemos um produto há muito esperado para adicionar à nossa família de madeiras, o nosso novo Deck. Com um design tridimensional, foi cuidadosamente pensado na drenagem das águas além das características excepcionais antiderrapantes próprias para exterior. A partir da essência das nossas coleções Coolwood e Deepwood, criamos este Deck em 4 cores naturais.

# TERRA

SURFACES, FORMATS & COLORS

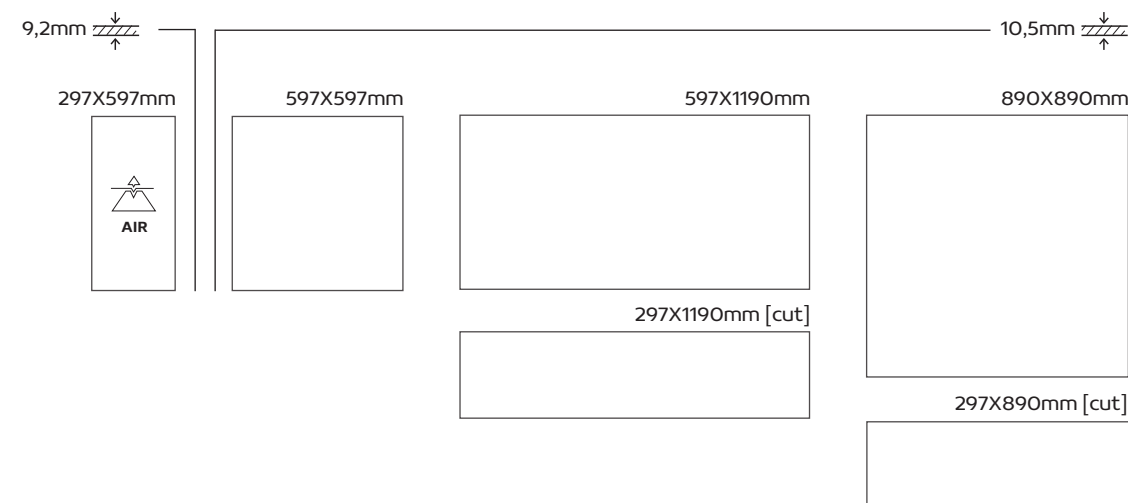

Terra is a masterpiece of Ceramic Tiles, inspired in our Planet Earth, its resources, and its natural elements as Earth, Water, Air, and Fire. Each element is defined by singular surfaces representing its essence. According to Ancient Civilizations, sometimes, there's a fifth element, like a quintessence, gathering all four creating a balance between them. All five combined are what we have known as Mother Nature.

Terra é uma obra-prima da cerâmica, inspirada no Planeta Terra, nos recursos e nos seus elementos naturais como a Terra a Água o Ar e o Fogo. Cada elemento é definido por superfícies únicas que representam a sua essência. De acordo com civilizações antigas, por vezes existe um quinto elemento como uma quinta-essência, juntando todos os quatro criando equilíbrio entre eles. Todos os cinco combinados, são o que conhecemos por Mãe Natureza.

# METALLIK

SURFACES, FORMATS & COLORS

Metallik is a superb porcelain stoneware, it's the most accurate ceramic interpretation of an iron plate stripped to elements. With its unparalleled characteristics of oxidized effect blended with the original metallic luster, Metallik is presented in its original plate form, and, in a faithful recreation of the old industrial floors, so used in large metal structures.

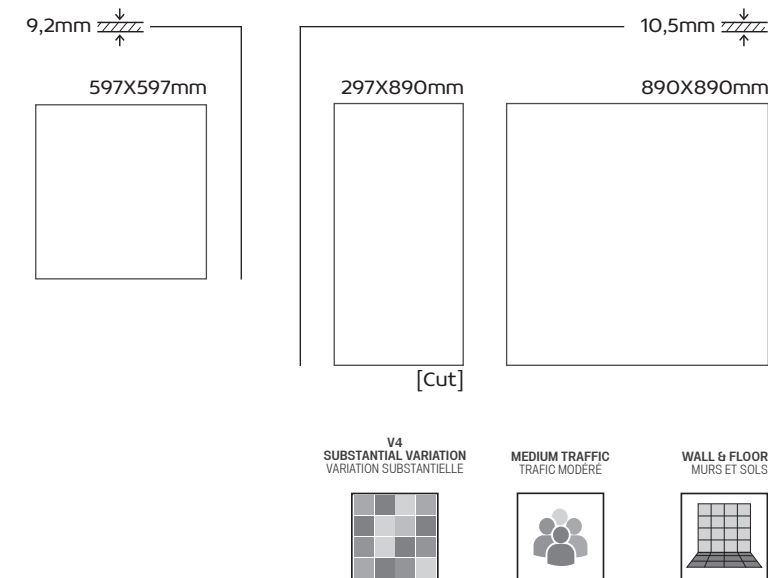

Metallik é um grés porcelânico soberbo, é a interpretação cerâmica mais fiel de uma chapa de ferro, exposta aos elementos. Com as suas características inigualáveis do oxidado misturado com os brilhos metálicos originais, o Metallik é apresentado na sua forma original de chapa e na fiel recriação do antigo piso industrial, tão utilizado nas grandes estruturas metálicas.

SURFACES, FORMATS & COLORS

The “Blade Collection”, is the pure translation of the metallic alloy from the ancient blades date back from the “Period of Spring and Autumn” (771 to 403 B.C.) that marked an era in the history of China.

The Blade collection is presented in “Tin” and “Copper” colors, a fair tribute to the artisans of yore.

A coleção Blade, é a tradução pura da liga metálica constituinte das lâminas das espadas do “Período das Primaveras e Outonos” (771 a 403 A.D.) uma era que marcou história da China antiga.

A coleção Blade é apresentada nas cores Tin e Copper, uma justa homenagem aos artesãos de outrora.

# INWOOD

SURFACES, FORMATS & COLORS

Inwood stands out as a noble piece of art from nature, with a symphony of veins, knots, and a wavy soft touch. From time to time nature has these peculiar moments, like some people do to create masterpieces.

Inwood destaca-se como uma nobre obra de arte da natureza, uma sinfonia de veios e nós e um toque suave ondulado. A natureza tem esses momentos peculiares de tempos em tempos, tal como algumas pessoas tem para poder criar obras-primas.

# MONTANA

SURFACES, FORMATS & COLORS

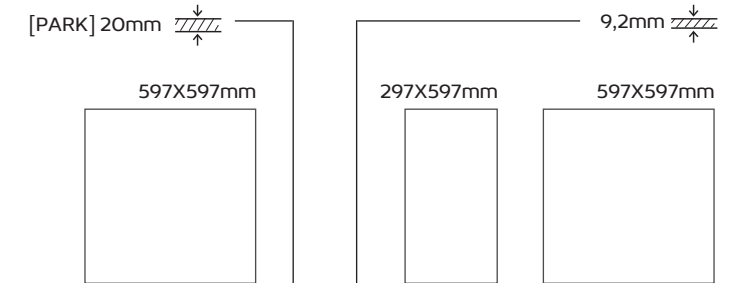

Montana is a close relationship with space. Defined by softness and delicacy, Montana is formed by pieces of a unique touch with colors essentially inspired in the dry plains of the low mountains, where the wildlife remains untouched. Its spectrum changes between the tones of a long winter and the temperatures of a dry summer.

Montana é uma relação estreita com o espaço. Definida pela suavidade e delicadeza, esta coleção é formada por peças de toque único e cores inspiradas nas planícies secas das montanhas baixas, onde a vida selvagem permanece intocada. O seu espectro varia entre os tons de um longo inverno e as temperaturas de um verão seco.

# ARDÓSIA

SURFACES, FORMATS & COLORS

Ardósia is the original translation of slate stone: fine-grained, foliated, homogeneous metamorphic rock with a rustic look, presented here in volcanic black.

In the past, slate stones were used in house roofing because of its non-water absorption characteristics, today, it's an obvious choice for the floors due to its technical features and for the walls due to its natural stone touch.

Ardósia é a tradução original da pedra de ardósia: metamórficas, homogénea, fina, foliada e granulada com um aspeto rústico, disponível na cor preto vulcânico. No passado, as pedras de ardósia foram utilizadas em coberturas de casas pelas suas características de não absorção de água. Nos dias de hoje, é uma escolha óbvia para pavimento, pelos seus atributos técnicos e para revestimento, pelo seu toque natural de pedra.

# STORYT

SURFACES, FORMATS & COLORS

Hydraulic ceramic tiles were once called encaustic tiles but originally were called inlaid tiles during the medieval period. By that time, the surface was unglazed and finished with different colors of clay. Inspired in those days with the latest modern technology, we reinvented this old trend to a new one, reviving the old days in new spaces.

A cerâmica hidráulica já foi chamada de ladrilho e originalmente chamada de cerâmica incrustada durante o período medieval, até então a superfície não era esmaltada, mas acabada com diferentes cores de argilas. Inspirados nesses tempos, reinventamos esta velha tendência numa nova, revivendo os velhos tempos em novos espaços.

# AVEIRO

SURFACES, FORMATS & COLORS

Aveiro is between the river and the sea with misty mornings and the urban scents. The blurry graphic patterns and five carefully chosen colours, reflects the daily life of city, people and the interaction with architecture and design.

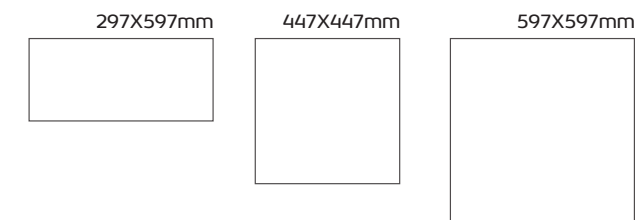

A coleção Aveiro encontra-se entre o rio e o mar com as manhãs enevoadas e os aromas citadinos. O padrão gráfico desfocado e as suas 5 cores cuidadosamente estudadas, refletem o dia a dia da cidade, das pessoas e as suas interações com a arquitetura e o design.

# CARRARA

SURFACES, FORMATS & COLORS

Carrara is a region of Tuscany in Italy, famous for its natural resources specifically for its marble that is. The stone is characterised by its extreme whiteness and also for being one of the hardest to work with. Inspired by its resistance we created an elite porcelain stoneware with the best clays, and, from the subtlety of its veins we re-created this natural gift in 4 different colours.

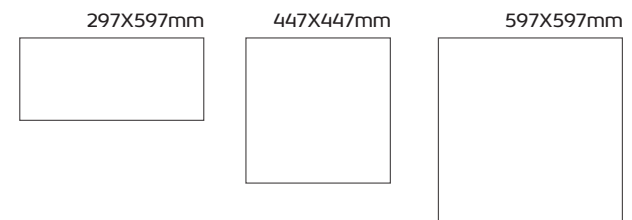

Carrara é uma região da toscana em Itália, célebre pelos seus recursos naturais, concretamente pelo seu mármore que é caracterizado pela sua extrema brancura e também por ser um dos mais duros de se trabalhar. Inspirados na sua resistência criamos um grés porcelânico de elite com as melhores argilas, e, da subtilidade dos seus veios recriamos esta dádiva natural em 6 cores distintas.

# SIERRA

SURFACES, FORMATS & COLORS

Sierra is by definition a mountain chain with irregular peaks that rise monumentally over different landscapes.

Inspired by this statement of nature, by its colors textures and reliefs, we created the "Sierra", a 4 color porcelain stoneware that translates some of the unique characteristics of mountainous regions around the world.

Sierra é por definição uma cadeia de montanhas com picos irregulares que se ergue monumentalmente sobre as diferentes paisagens.

Inspirados por esta declaração da natural, pelas suas cores, texturas e relevos que criamos o "Sierra", um grés porcelânico de 4 cores que traduzem algumas das características únicas de regiões montanhosas espalhadas pelo mundo.

# TORCHIS

SURFACES, FORMATS & COLORS

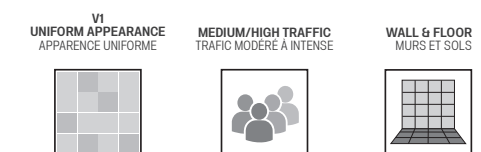

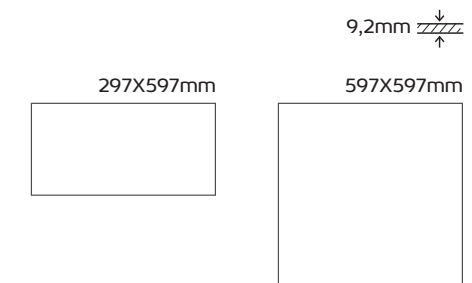

In order to create simplicity with diversity at the same time, we decided to create a collection elementary in its formats but complex in its colour range. We developed in our labs a total of six colours, a mix of warm, cold and neutral tones, developed with such care that all of them are perfectly combinable, achieving a rare balance in a colour scheme.

Para criar simplicidade e diversidade em simultâneo, decidimos criar uma coleção elementar nos formatos, mas complexa na sua faixa de cores. Desenvolvemos nos nossos laboratórios um total de seis cores, uma mistura de tons quentes, frios e neutros, criados com tanto cuidado que todos eles são perfeitamente combináveis, conseguindo um raro equilíbrio num esquema de cores.

# FLUX

SURFACES, FORMATS & COLORS

The Flux Collection was created as an abstract approach to the movement of things, for that, we designed random flows of infinity tones with no defined path as if depended on gravity to move. This essay we call it Flux and is available in a superb porcelain tile for the floor and in a fabulous version for cladding with a unique touch.

A Coleção Flux foi criada como uma abordagem abstrata ao movimento das coisas, para isso, desenhamos fluxos aleatórios de uma infinidade de tonalidades sem sentido definido, como se da gravidade dependessem para se movimentar. A este ensaio chamamos de Flux e está disponível num soberbo porcelânico para o chão e numa versão de revestimento com um toque sem igual.

# SPIRIT

SURFACES, FORMATS & COLORS

Spirit is a combined solution between a fine porcelain stoneware for floor and a soft white body ceramic wall tile. The graphics, carefully designed to be fluid when combined, visually make the spaces larger. The result is a brilliant optical effect when used in the most demanding spaces, while in commercial areas the visual dimension is quite different from the real one.

Spirit é uma solução combinada entre um pavimento nobre em grés porcelânico e um suave revestimento em pasta branca. A gráfica, cuidadosamente estudada para ser fluída, quando em uso combinado, torna visualmente os espaços maiores. O resultado é um efeito óptico brilhante quando usado em espaços mais exíguos, enquanto em áreas comerciais a dimensão visual é bem diferente da real.

SURFACES, FORMATS & COLORS

Like poetry, Alba is a recital of happiness, a welcome morning on a warm day, with seven soft colors taken from the farmland and four unique motifs in a color match to be combined.

Alba was taken from dreams and harvested from the fields because the essential is invisible to the eye.

Tal como a poesia, Alba é um recital de felicidade, uma manhã de boas-vindas num dia quente, com sete cores suaves retiradas da terra cultivada e os seus quatro motivos únicos num jogo de cores a combinar. Alba foi tirada dos sonhos e colhida dos campos porque o essencial é invisível ao olho.

# JUICY

SURFACES, FORMATS & COLORS

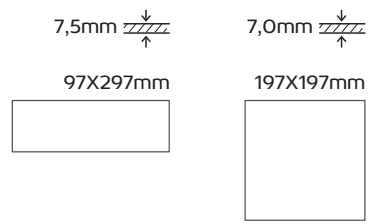

Creating the Juicy collection was like taking a field trip or spending the day at an amusement park, it's a carefree, cheerful collection that turns every environment into a playground. We stay surrendered to color, graphic motifs, we mix colors, we laugh, in the middle, we cry and in this mix of emotions, we create one of the most beautiful collections of joy and well-being.

Criar a coleção Juicy foi como dar um passeio no campo ou passar o dia num parque de diversões, é uma coleção despreocupada, alegre, que transforma cada ambiente num recreio. Ficamos rendidos à cor, aos motivos gráficos, nós misturamos as cores, sorrimos, choramos pelo meio e neste misto de emoções criamos uma das mais belas coleções de alegria e bem-estar.

# PRISMA

SURFACES, FORMATS & COLORS

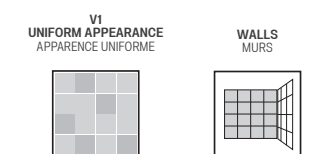

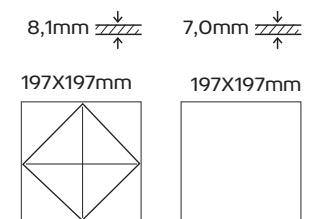

Prisma is one of those collections designed with passion, a little nostalgia, and a touch of magic. It's a vintage-inspired, bas-relief wall tile with ten colors carefully selected. The bas-relief tiles have wonderful shinings details only visible at certain angles, we like to call it the magical angle that turns what is beautiful into something fantastic.

Prisma é uma daquelas coleções desenhadas com paixão, um pouco de nostalgia e um toque de magia. É um revestimento de inspiração vintage, em baixo relevo e com uma paleta de dez cores cuidadosamente escolhida. As peças de baixo relevo têm deliciosos detalhes brilhantes apenas visíveis em determinados ângulos, nós chamamos-lhe o ângulo mágico - que transforma o que é belo em algo absolutamente fantástico.

Retro é uma coleção de dupla personalidade devido às suas cores. Se por um lado é divertida e despreocupada, por outro tem uma inclinação clássica e sóbria. No entanto, ambas as tendências têm em comum os detalhes gráficos cuidadosamente escolhidos, de aspecto gasto e toque suave, acompanhados por distintas decorações que permitem dar um toque pessoal.

# URBAN-CHIC

SURFACES, FORMATS & COLORS

Urban-Chic is a discreet, slightly tactile collection that brings together some of the textures present in everyday life. The leaves in the city streets to the textures of the fabrics, the windows from tyhe buildings to the waves from the ships in the portuary zone.

# DIAMOND

SURFACES, FORMATS & COLORS

Diamond is a wall tile off a three-dimensional effect with a soft touch, produced in two classic colors: black and white.

Due to its carefully developed diamond-shaped reliefs, different reflections and light tones are formed, whether if it's day or night. The lightroom is never the same or constant, spaces renewed every minute.

Diamond é um revestimento tridimensional, de toque suave, produzido em duas cores clássicas, o preto e o branco. Devido ao seu relevo cuidadosamente desenvolvido em forma de diamante, produz diferentes reflexos e intensidades de luz, independentemente de ser dia ou noite. A reflexão nunca é a mesma nem constante, os espaços renovam-se a cada minuto.

## NATURE AT THE ORIGIN OF EVERYTHING

Sustainable development is the challenge of today's companies. In Pavigrés Cerâmicas, S.A. we are aware of this reality and we take the challenge seriously.

For several years now, there's been a growing environmental awareness in the group, based on a principle of continuous improvement of environmental performance, not only because of the impact that today's actions have on the resources available for future generations but also because of the immediate impact on production costs and competitiveness. The company adopts an approach of environmental protection and pollution prevention, both at the level of production processes and products, trying to reduce the consumption of resources: raw materials, energy and water, which are vital components of all processes.

Reducing resource consumption is one of the main objectives within the Quality and Environmental Management System, according to the ISO NP 9001:2015 and ISO NP 14001:2015 standards, for which the organization is certified. Actions and goals have been defined to try to guarantee this objective. This goal can only be achieved with a proactive attitude, continuously seeking the means that allow us to effectively adapt equipment and processes to new technologies available.

## A NATUREZA NA ORIGEM DE TUDO

O desenvolvimento sustentável é o desafio das empresas de hoje. Na Pavigrés Cerâmicas, S.A estamos conscientes dessa realidade e encaramos o desafio com seriedade.

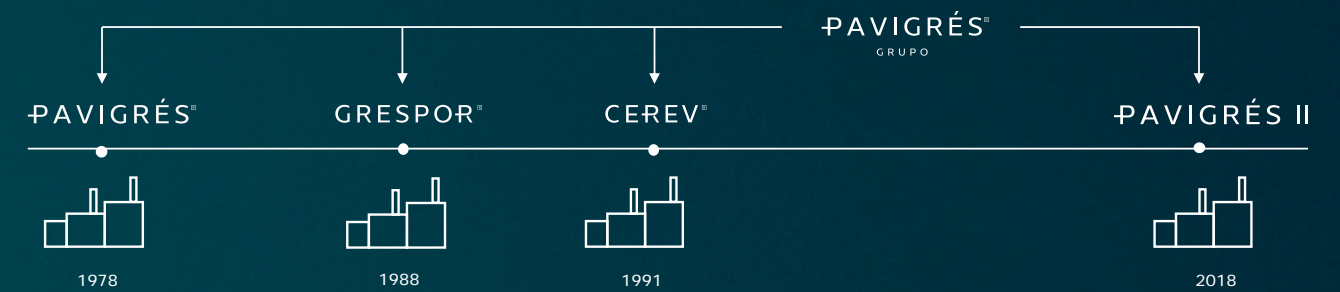

Desde há vários anos tem sido crescente a consciencialização ambiental no grupo, assente num princípio de melhoria contínua do desempenho ambiental, não apenas devido ao impacto que as ações de hoje têm nos recursos disponíveis para as futuras gerações, mas também devido ao impacto imediato nos custos de produção e na competitividade. A empresa adota uma abordagem de proteção do ambiente e prevenção da poluição, tanto ao nível dos processos de produção como dos produtos, tentando reduzir o consumo de recursos: matérias-primas, energia e água, que são componentes vitais de todos os processos.

A redução do consumo de recursos é um dos principais objetivos no âmbito do Sistema de Gestão de Qualidade e Ambiente, segundo as Normas ISO NP 9001:2015 e ISO NP 14001:2015, pelas quais a organização é certificada. Definiram-se ações e metas para procurar garantir esse objetivo. Tal objetivo só se alcança com uma atitude pró-ativa, procurando de forma incessante os meios que nos permitam uma adequação efetiva de equipamentos e processos a novas tecnologias disponíveis.

## O GRUPO PAVIGRÉS ESTRUTURA INDUSTRIAL

O Grupo Pavigrés dedica-se ao fabrico de pavimento e revestimento cerâmico e é constituído por 4 unidades de produção: Pavigrés e Grespor em Anadia, Cerev na Mealhada e Pavigrés II em Bustos. Contamos com a colaboração de cerca de 750 trabalhadores e temos uma capacidade instalada de 10 milhões de m<sup>2</sup>/ano.

## GOOD PRACTICES, PILLARS FOR SUSTAINABLE DEVELOPMENT

We focus not only on the impact that today's actions have on the resources available for future generations, but also on the immediate impact that these actions have on production costs and on our competitiveness. Sustainability is based on fighting waste, and it is precisely in the efficiency of companies that their competitive advantage may lie.

This can only be achieved with a proactive attitude, which materializes with the adoption of good practices, already rooted in Pavigrés, and which are part of its Strategy.

## BOAS PRÁTICAS, PILARES PARA O DESENVOLVIMENTO SUSTENTÁVEL

Colocamos o nosso foco não apenas no impacto que as ações de hoje têm nos recursos disponíveis para as gerações futuras, mas também no impacto imediato que estas ações têm nos custos de produção e na nossa competitividade. A sustentabilidade baseia-se no combate ao desperdício, e é precisamente na eficiência das empresas que pode residir a sua vantagem competitiva.

Tal só se alcança com uma atitude pró-ativa, que se materializa com a adoção de boas práticas, já enraizadas na Pavigrés, e que fazem parte da sua Estratégia.

**RESOURCE MANAGEMENT - ENERGY EFFICIENCY**  
**GESTÃO DE RECURSOS - EFICIÊNCIA ENERGÉTICA**

- Recovery of hot air from the cooling zone of the ovens for pre-heating the product in the greenhouses and dryers.
- Recovery of gases resulting from combustion to help heat the atomisers.
- Replacement of atomizers ovens and dryers with new and more energy efficient equipment.
- Installation of high efficiency burners in the ovens.
- Acquisition of high efficiency motors, energy class 3 (IE3).
- Installation of variable speed drives in the motors.
- Replacement of the roofs by translucent tiles that allows the entry of natural light.
- Replacement of the existing lighting by LED lighting.
- Computerized control of energy consumption associated with production equipment, such as atomisers, presses, dryers and ovens, which allows us to check consumption in real time.

- Recuperação de ar quente da zona de arrefecimento dos fornos para pré-aquecimento do produto nas estufas e secadores.
- Recuperação dos gases resultantes da combustão para auxiliar no aquecimento de atomizadores.
- Substituição de atomizadores, fornos e secadores, por equipamentos novos, mais eficientes energeticamente.
- Instalação de queimadores de alto rendimento nos fornos.
- Aquisição de motores de alto rendimento, de classe energética 3 (IE3).
- Colocação de variadores de velocidade nos motores.
- Substituição dos telhados, com aplicação de telhas translúcidas que permitem a entrada de luz natural.
- Substituição da iluminação existente por iluminação LED.
- Controlo informatizado dos consumo energéticos associados aos equipamentos produtivos, como atomizadores, prensas, secadores e fornos, que nos permite em tempo real, verificar os consumos.

**RESOURCE MANAGEMENT - ENERGY EFFICIENCY**  
**GESTÃO DE RECURSOS - ENERGIAS RENOVÁVEIS**

- It is already a reality to Pavigrés Group the installation of two photovoltaic plants, which are expected to significantly reduce the dependence on electric energy from the grid.
- Cerev in 2020 was the first manufacturing unit to be equipped with 2222 photovoltaic panels, which will generate around 1392MWh/Year counting with a reduction of dependence on the public energy network of around 13%. With this reduction, indirectly, around 500 tons of CO<sub>2</sub> will no longer be emitted.
- Pavigrés II in 2021/2022 was the second factory to be equipped with 1850 photovoltaic panels which will generate about 1285MWh/Year, with a reduction in the use of the public energy network of about 19%. With this reduction, indirectly, 240 tons of CO<sub>2</sub> will no longer be emitted.
- With these investments Pavigrés Group has taken into account two decisive factors, the reduction of costs through the consumption of clean energy and the significant reduction of the amount of CO<sub>2</sub> emitted by reducing the energy needs of the public network.

- É já uma realidade para a o Grupo Pavigrés a instalação de duas centrais fotovoltaicas, com as quais se prevêm uma redução significativa da dependência de energia elétrica da rede.
- A Cerev em 2020 foi a primeira unidade fabril a ser equipada com 2222 painéis fotovoltaicos, estes, vão gerar cerca de 1392MWh/Ano contando com uma redução da dependência da rede energética pública de cerca de 13%. Com esta redução, indirectamente deixarão de ser emitidas cerca de 500Ton. de CO<sub>2</sub>.
- A Pavigrés II em 2021/2022 foi a segunda unidade fabril a ser equipada com 1850 painéis fotovoltaicos, que vão gerar cerca de 1285MWh/Ano havendo uma redução do uso da rede energética pública de cerca de 19%. Com esta redução, indirectamente deixarão de ser emitidas cerca de 240Ton. de CO<sub>2</sub>.
- Com estes investimentos o Grupo Pavigrés teve em conta dois fatores decisivos, a redução dos custos através do consumo da energia limpa e a significativa redução da quantidade de CO<sub>2</sub> emitido pela redução das necessidades energéticas da rede pública.

**RESOURCE MANAGEMENT - RAW MATERIALS**  
GESTÃO DE RECURSOS - MATÉRIAS PRIMAS

- **Development of new products with lower thickness, which allows a reduction in the consumption of raw materials and, consequently, inherent emissions to the process by its consumption and processing.**
- **Growing demand and substitution of raw materials by similar materials with a reduced carbon content.**
- **Regular energy audits that allow a detailed and exhaustive study of the production processes. They also make it possible to determine the investments necessary for the implementation of the measures identified, as well as their profitability and viability.**
- **Reduction of clean water consumption through recirculation of treated residual water, which consequently reduces discharges into the water domain.**
- **Dry rectification lines, which not only no longer require the use of water in the transformation process, but also allow the reincorporation of the dust from the rectification.**
- **The declassification of the raw shard, atomised powder and cooked shard, allows us to forward them as by-products. Regarding the waste generated, we can state that 99.9% of the waste is sent for recovery operations.**

- Desenvolvimento de novos produtos com espessura inferior, que permite a redução de consumo de matérias-primas e, conseqüentemente, emissões inerentes ao processo pelo seu consumo e processamento.
- Crescente procura e substituição de matérias-primas por similares com reduzido teor de carbono.
- Realização de auditorias energéticas periódicas que possibilitam o estudo detalhado e exaustivo dos processos produtivos. Permitem ainda determinar os investimentos necessários para a execução das medidas identificadas assim como a rentabilidade e viabilidade das mesmas.
- Redução do consumo de água limpa mediante a recirculação de água residual tratada, que conseqüentemente reduz as descargas no domínio hídrico.
- Linhas de retificação a seco, que não só dispensam a utilização de água no processo de transformação, como permite a reincorporação do pó proveniente da retificação.
- A desclassificação do caco cru, pó atomizado e caco cozido, permite-nos o seu encaminhamento como subproduto. Relativamente aos resíduos gerados, podemos afirmar que 99.9% dos resíduos são encaminhados para operações de valorização.

We are aware that there is a long way to go and the struggle against obstacles is constant. It is our goal to reduce greenhouse gas emissions as much as possible, and to do everything within our power always with a view to sustainability and environmental protection.

Estamos conscientes que há um longo caminho a percorrer e que o confronto com obstáculos é constante. É nosso objetivo reduzir ao máximo as emissões de gases com efeito de estufa, e fazer o que estiver ao nosso alcance sempre no sentido da sustentabilidade e proteção do meio ambiente.

AFTER LAYING THE TILES AND GROUTING IT IS OF OUTMOST IMPORTANCE TO PERFORM THE FINAL CLEANING PROCEDURES IN ORDER TO ELIMINATE ANY REMAINING RESIDUES (CEMENT, GROUT , GLUE, PAINT) AND ALSO ANY OTHER POSSIBLE SUPERFICIAL RESIDUES. IT IS RECOMMENDED THAT, IMMEDIATELY AFTER THE GROUT DRY, THE TILE FIXER SHOULD WIPE THE EXCESS WITH A WET CLOTH (ALWAYS FOLLOWING THE MANUFACTURER'S INSTRUCTIONS). MOST OF THE NOTICED PROBLEMS, ONCE THE LAYING WORKS ARE COMPLETE, ARE DUE TO INEFFICIENT / NON EXISTING CLEANING PROCEDURES - FOR THIS TYPE CLEANING PROCEDURES WE RECOMMEND AN ACID BASED DETERGENT, ON THE DAILY CLEANING PROCEDURES WE RECOMMENDED THE USE OF A NEUTRAL DETERGENT. FOR SPECIFIC CLEANING, KINDLY CHECK THE CHART:

APRÈS POSE ET JOINTEMENT DES CARREAUX, IL EST EXTRÊMEMENT IMPORTANT D'EFFECTUER LES OPÉRATIONS DE NETTOYAGE DE FIN DE CHANTIER AFIN D'ÉLIMINER TOUS RÉSIDUS (CIMENT, JOINT, COLLES ET PEINTURES), MÊME SUPERFICIELS, DE LA MISE EN ŒUVRE. IL EST CONSEILLÉ QUE, IMMÉDIATEMENT APRÈS LE SÈCHAGE DU JOINT, QUE LE SURPLUS DES PRODUITS SOIENT RETIRÉS À L' AIDE D' UN TORCHON HUMIDE (EN SUIVANT TOUJOURS LES INDICATIONS DU FABRICANT). LA PLUPART DES PROBLÈMES QUI SURGISSENT APRÈS LA FIN DU CHANTIER SONT DU À UN MAUVAIS VOIR INEXISTANT NETTOYAGE APRÈS APPLICATION - POUR CE NETTOYAGE NOUS RECOMMANDONS UN DÉSINCRUSTANT À BASE D'ACIDE; POUR LE NETTOYAGE QUOTIDIEN DU MATÉRIEL NOUS RECOMMANDONS L'UTILISATION DE NETTOYANT NEUTRE ET POUR LES TACHES PLUS SPÉCIFIQUE VOIR TABLEAU CI-DESSOUS:

APÓS A APLICAÇÃO DOS MOSAICOS E RESPECTIVA JUNTA É DE EXTREMA IMPORTÂNCIA EFECTUAR AS OPERAÇÕES DE LIMPEZA DE OBRA, DE FORMA A ELIMINAR OS RESÍDUOS DE APLICAÇÃO (CIMENTOS, COLAS, JUNTAS, TINTAS) BEM COMO POSSÍVEIS RESÍDUOS SUPERFICIAIS DO MATERIAL. RECOMENDA-SE QUE, IMEDIATAMENTE APÓS A JUNTA SECAR, SE LIMPE OS EXCESSOS DESTES PRODUTOS COM UM PANO HUMEDECIDO (SEGUINDO SEMPRE AS INDICAÇÕES DO FABRICANTE). A MAIORIA DOS PROBLEMAS MANIFESTADOS APÓS A OBRA DEVE-SE A UMA MÁ E POR VEZES INEXISTENTE LIMPEZA APÓS A APLICAÇÃO - PARA ESTE TIPO DE LIMPEZA RECOMENDAMOS UM DESINCRUSTANTE DE BASE ÁCIDA; NA LIMPEZA QUOTIDIANA DO MATERIAL RECOMENDAMOS A UTILIZAÇÃO DE DETERGENTE NEUTRO E NA LIMPEZA DE MANCHAS ESPECÍFICAS, CONSULTAR A TABELA:

. THE AIR GAP CREATED BY THE SYSTEM OF VENTILATED FACADES IMPROVES CONSIDERABLY THE INSULATION:  
 - THERMAL (REDUCTION OF ENERGETIC COST UP TO 35%);  
 - ATMOSPHERIC (AVOIDS THE CONDENSATION OF MOISTURE);  
 - SOUND (REDUCES UP TO 20% THE ENTRY OF OUTER NOISE).
